

NNER CONFERENCE 2018

Charlotte
north carolina
October 10-12
2018

THEME:
What are our schools for?

The purpose of schools in America has been continually scrutinized and questioned since their origin. **What role do schools play in a democratic society?** Or maybe we should ask, how can a democratic society be sustained without an educated citizenry? What should that education include? What are the end goals for schooling in our country? **What are schools for?**

The **2018 NNER Conference** invites you into this crucial conversation to consider the question: What are our schools for? The conference will provide a dynamic venue for educators and public school constituents from various settings to share their ideas, their research, and their knowledge.

2018 CONFERENCE TIMELINE

- May 1:** Notification of proposal acceptance
- May 15:** Conference Schedule/Program available electronically
- June 1:** Drawing for Executive Level Room Upgrade at Hilton City Center Charlotte (Must stay 2+ nights)
